

END NOTE

I shifted the focus of my writing after Joe Biden became president in 2021. It was obvious that the country was headed for hard times, so I decided to concentrate on political fiction for a while. People needed to be warned about what was going on. Over the next four years I posted thirty-six cautionary tales on my website, MikeSheedy.com.

Thankfully the Bidenistas are now gone, but the stories they inspired are still on the site. Check them out if you want a blast from the past, or a blast from the future if we're dumb enough to let the globalists take control of America again. Story titles below.
